2.4	System supplier	<p>Do you have a product idea? Our technicians use SolidWorks to design your components and SolidCam as well as iMachining to create the CNC milling and turning programs.</p> <p>Do you need a prototype? We can produce your prototype overnight using 3D printing technology.</p> <p>Would you like an initial sample with a test report? In our climate-controlled measurement room, using a calibrated Zeiss coordinate measuring machine, we can measure down to a thousandth of a millimeter.</p> <p>Are you looking for single-part or series production? With our state-of-the-art machinery, virtually anything is possible. Whether we're manufacturing individual parts or large series, we always find the right solution for your product.</p> <p>Do you need marking on your products after heat and surface treatment? Using our marking systems, we can laser-engage any custom logo onto your parts.</p> <p>RB-Messwerkzeuge, your supplier We provide you with fully assembled components, complete with operating instructions and safety guidelines, packaged in your preferred packaging with the appropriate labels. Your parts are delivered directly to you via parcel service, freight carrier or our own delivery service.</p>
